Overview

One of Us Is Lying by Karen M. McManus is a young adult mystery thriller that begins with five students walking into detention at Bayview High: Bronwyn, the Yale-bound overachiever; Addy, the popular beauty; Nate, the drug dealer; Cooper, the baseball star; and Simon, the creator of a gossip app that exposes everyone's secrets. When Simon dies during detention from an apparent allergic reaction, the other four become prime suspects. The story follows each of them as they navigate suspicion, hidden truths, and the unraveling of their carefully constructed lives.

The novel is structured as a multi-perspective narrative, alternating between Bronwyn, Addy, Nate, and Cooper, each revealing their own secrets and their connections to Simon. As the investigation unfolds, they realize Simon's death was not an accident but a murder, and that someone is using his own app to frame them. The plot twists through red herrings, romantic tensions, and a final revelation that the killer is someone they never suspected, forcing the group to confront their own complicity in the culture of secrets and betrayal.

The book matters because it taps into contemporary anxieties about privacy, social media, and the pressure to maintain a perfect image. It explores how gossip and judgment can destroy lives, and how people are often not who they appear to be. McManus crafts a gripping whodunit that also serves as a commentary on high school hierarchies, mental health, and the consequences of keeping secrets. Its popularity has spawned a series and a TV adaptation, cementing its place as a modern YA classic.

Chapter Summaries

Part One: The Detention

Five students are sent to detention: Bronwyn, Addy, Nate, Cooper, and Simon. Simon, the creator of the gossip app 'About That,' is targeted by the others for his cruel secrets. During detention, Simon drinks a cup of water and dies from an allergic reaction to peanut oil. The four survivors become prime suspects, and the police begin investigating each of them, uncovering their secrets and motives.

Part Two: The Suspects

The narrative shifts among Bronwyn, Addy, Nate, and Cooper. Bronwyn's perfect academic record is threatened by a cheating scandal. Addy's relationship with her boyfriend Jake is strained as she reveals her own insecurities. Nate, a known drug dealer, is the most obvious suspect. Cooper, a baseball star, hides his sexuality. Each of them receives threatening messages from someone claiming to know the truth about Simon's death.

Part Three: The Investigation

The four suspects begin to work together to clear their names. They discover that Simon had a secret 'murder board' with files on everyone, including a plan to expose more secrets. They also learn that Simon's death might be linked to a mysterious person named 'Jake' who had access to the detention room. The group's trust in each other grows as they share their own secrets and realize they are being framed.

Part Four: The Revelation

The investigation leads to a shocking twist: the killer is not one of the four suspects but a character named Jake, Addy's boyfriend, who was secretly working with Simon to expose others. Jake killed Simon to prevent him from revealing Jake's own secrets. The group confronts Jake, and he is arrested. The four are exonerated, but the experience changes them forever, and they form an unlikely bond.

Part Five: The Aftermath

The novel concludes with the four characters moving forward with their lives, having learned from the ordeal. Bronwyn and Nate begin a relationship, Addy becomes more independent, and Cooper comes to terms with his sexuality. The story ends with a hint that Simon's app 'About
